With today's retail climate becoming more and more competitive, it is imperative that retail florists adopt best practice in all areas of their business

One such area, in fact probably the most crucial of areas is post harvest flower care.

Flowers are one of the most important commodities in your business and guaranteeing their freshness can have major positives for you, your business and its reputation.

OASIS® Post Harvest now offers FLORALIFE® Products for every level of the distribution chain. Cut flowers should have the perfect bloom at the right time – when they are delivered to the consumer, and achieving this could not be simpler than by using OASIS® FLORALIFE® products.

Adopting a post harvest care and conditioning system has many benefits.

Flower Foods contain ingredients that help lower the PH of the vase water, nourish and hydrate flowers, and keep the flower stems free flowing.

The use of Flower Food can aid in reducing product scrap.

Flower Food helps keep vase water clean.

Flower Food reduces unpleasant odours.

The use of Flower Foods can enhance your business and its reputation.

OASIS® Brand Floral Foams are made to stay wet, hold your flowers in place, and keep them fresh.

You've built your reputation on beautiful arrangements. We've built ours on quality and consistent performance - brick by brick.

There may be other green bricks that hold water, but there's no substitute for OASIS® Brand Floral Foams.

Does OASIS® Brand Floral Foam deliver quality?

Is OASIS® Brand Floral Foam, worth insisting upon, **absolutely**.

And here are the many reasons why:-

OASIS® Brand Floral Foam can handle anything

No matter how many stems you put into OASIS® Brand Floral Foam - your arrangement stays in tact. The quality the OASIS® Brand Floral Foam offers you is priceless.

Time is money

From 0 to 1.9 litres in approximately 50 seconds – when time counts, OASIS® Brand Floral Foam soaking time is the winner.

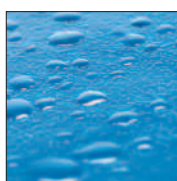

Power hydration

A standard brick of OASIS® Brand Floral Foam can absorb approximately 1.9 litres of water and gives the flowers water when needed.

pH matters

Flowers like it – bacteria does not. The optimal pH of OASIS® Brand Floral Foam helps your flowers last longer.

Water stays exactly where it belongs

Because of its unique cell structure, OASIS® Brand Floral Foam holds at least 98% of the water absorbed.

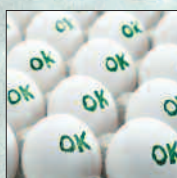

The right foam for every flower

OASIS® Brand Floral Foam is not your average floral foam. Three different types make sure that the most suitable floral foam is available for every design.

The flowers know the difference

The cell structure of OASIS® Brand Floral Foam resembles the biological make-up of a plant stem. No matter where you insert your stems into OASIS® Brand Floral Foam, your flowers will always receive the water they need, when they need it.

Consistent quality, brick after brick

No less than eight controls are carried out before OASIS® Brand Floral Foam receives the desired OASIS® Brand Floral Foam stamp. OASIS® Brand Floral Foam quality is worth insisting upon.

Your reputation means everything, so look carefully only when you find OASIS® Brand Floral Foam on the brick, is it the original OASIS® Brand Floral Foam.

In a spring garden

Seeing the first awakening of spring in a garden is an uplifting and magical time, this is why capturing this scene and creating a miniature spring garden is such a delight particularly in the dark days of winter. Bringing nature indoors in an arrangement is a long lasting and instant best seller. An OASIS® FOAM FRAMES® Posy Pad is ideal, start with a verdant base of grouped foliage then add collections of spring gems, fragrant Hyacinth, Ranunculus, Mimosa and tall Pussy Willow to emulate a rustic landscape.

The world's first coloured floral foam

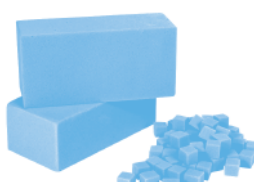

The sky's the limit when you use OASIS® RAINBOW® Foam. Say goodbye to the traditional rules of regular floral foam.

It's more than just foam, it's a design accessory that adds colour and impact to arrangements. Inspired by the popularity of glassware, OASIS® RAINBOW® Foam is meant to be seen. And it's the first floral foam that can be used with fresh, silk and dried flowers.

- Bright, fun and versatile, your arrangements will never be the same again.
- Perfect for creating contemporary attention-grabbing designs for parties, weddings and gifts.
- Enables you to make the floral foam part of the display - show the foam, don't hide it.
- Because the foam is there to be seen - fewer flowers and foliage are needed.

NEWPRODUCT

OASIS® NAYLORBASE® QUICK CLIP LETTERS

OASIS® Floral Products, the originators of the extremely popular floral word tribute have introduced a new lettering system

Florist Friendly Font

Designed by florists, the new letter creates a better shape when flowered up

Quicker Assembly

The integrated quick clips on the back of the letters allows for speedier assembly, simply push onto the letter bars.

Total Security System

When the letters are pushed onto the letter bars they are extremely secure but easy to remove if desired

Quicker And Cheaper To Flower Up

The letters also use fewer flowers to flower up, saving make up time and flower costs

Consistent Floral Foam Quality

Each letter is made with OASIS® Brand Floral Foam, manufactured in the UK
